Nothing says more about you, or is more unique than your *Signature*

Let Signature sign itself on your home, providing spacious flexible living whilst increasing value and expressing your lifestyle.

If your conservatory windows are stiff with old age, your door has seen better days and your living space seems to be closing in around you, Signature could be just what you need to transform your home into the clean, comfortable and stylish sanctuary with a conservatory you have been dreaming of.

Your home should be a retreat from the world that offers you comfort and protection. By choosing the Signature range of conservatories, you will achieve this balance, personally tailored to suit you. Fitting a Signature conservatory is, without doubt, a sound investment; adding immediate value to your property; improving appearance and security; and increasing the efficiency of your home, in consideration of today's evolving eco-aware society. You can trust Signature to:

- ✔ Give you the best service and quality assurance.
- ✔ Work at your convenience to fit around family routines and commitments.
- ✔ Improve your home using the most advanced products, methods and materials available.
- ✔ Always advance in our product designs and security development, we'll never be out dated.

extra space to play and snuggle”*

Extend your home, extend your possibilities, with a Signature conservatory

Throughout history, conservatories have been a fashionable space in which to entertain and relax. To extend your home will extend your possibilities – the only limit is your own imagination.

Your conservatory should be a union of space, style and functionality. It will provide the extra room you have always dreamed of. It could be a space to work, a space to play, a space to dine or a space to just simply escape from the stresses and strains of life.

If you want something a little extraordinary, Signature conservatories come in a range of wood grain finishes aside from white, with a choice of roof types, glazing, hardware and locks (see page 39 for hardware options) so your space will be nothing less than unique.

Conservatories

"I've never known a better excuse for a party than a Signature conservatory"

Signature conservatories are light and airy, yet as strong and robust as a brick built room

What's more you can select and combine our range of standard designs to create your very own engaging and versatile living spaces.

When choosing the design of your conservatory, consider the space you have available, how you are going to use it, and which will most compliment the appearance of your home.

Conservatories were traditionally a place in which to grow exotic plants and protect foliage during harsh winters. They offer a natural transition from home to garden where you can while away the hours enjoying being at one with nature.

The Garden Rooms of the Georgian elite were replaced to cater for the 'tea and gossip' culture of the late Victorian and Edwardian period

What we see today is a multipurpose expansion of the home, a comfortable and welcoming space which every household can afford to indulge in.

IT'S THE SMALL DETAILS THAT MAKE IT PERSONAL...

Signature

“It’s so nice to have the freedom to make my own decisions, with reassuring advice that I can trust.”

10 important tips when choosing a conservatory

What style will suit your home?

If your home is a period property or more contemporary, there is a conservatory to suit every style. Try to match your conservatory seamlessly to your home in terms of brickwork, colour and decorative trims.

Do you require planning permission?

Planning permission is not usually required for conservatories. It is a good idea to check with your local council if you live in a conservation area or listed building.

What is the best position for it to be installed?

Your expert installer will be able to advise you on this, so remember to think about where the sun will be throughout the day and if you will require ventilation or blinds.

How big should it be?

Try not to take up too much of your

garden space. Your conservatory should be an extension of your home but not at the expense of your lawn! Plan your conservatory carefully and ask your installer what the internal dimensions of the finished conservatory will be.

Have you introduced bi-fold doors?

Bi-fold doors can open up the whole elevation of your conservatory and really create that al-fresco feeling indoors.

A dwarf brick wall or floor to ceiling glass? Your conservatory could be a combination of brick and glass or opt for full height windows to maximise light.

NO DWARF WALL

Will your conservatory be secure?

All Signature conservatories are installed so that the bead which holds the glass in place is on the inside, ensuring the glass cannot be removed from the outside.

Personalise your conservatory?

The choices you make will be a statement of your own personality and

preferences. Free your individuality through detail, from finials to cresting, lighting to heating, flooring to furniture. Also with modern production techniques, you can choose coloured uPVC which faultlessly imitates wood-grain and other paint effects.

Have you considered your neighbours?

If your conservatory encroaches on your neighbour's enjoyment of their garden then your neighbours may prevent you enjoying your conservatory. Make sure you won't block any sunlight from them and they are OK with your plans.

Enjoy, enjoy, enjoy! You have spent a lot of time creating your perfect living space, so relax and enjoy the sunny spot on the sofa, the romantic mood sat under the stars or the flow and unity that your new room has brought to your home.

“We own a period property and our conservatory fits seamlessly into its context.”

Inspired choices, finishing touches

Sprinkle some imagination into reality and create your dream conservatory.

Bring your brand new living space to life with the perfect combination of furniture, fabrics and flooring designs to create a productive working climate, an ambient atmosphere for fine dining with friends, or a soft and sunny retreat for simply relaxing with your loved ones.

Flooring – Whether you choose wooden flooring or tiles, the options in terms of colour and style are endless. The floor will be easy to clean and with so many choices available you will certainly find one that suits your new room.

Blinds – You will need to consider some shade to control the heat and glare in your conservatory. Blinds are an ideal solution and come in different styles and some can be simply be cut to fit. You can choose from roller, roman, wood weave, vertical or venetian blinds, are all available in different patterns and colours.

Heating – An ideal way to heat your conservatory is with slim line electric wall heaters-they are controllable and are small and discreet. You could even choose under floor heating. It is an efficient way to heat your room and once installed it is invisible.

Air Conditioning A conservatory can be very hot in the summer and cold in the winter, but you want your room to be at a perfect temperature regardless of the season. Air conditioning is the ideal solution.

Fans – Fans come in various sizes and with different speeds. Forwards to move the air around in the room and reverse to draw down the warm air which has risen and trapped in the roof- perfect for winter. Fans can be fitted with lights and can be operated with pull chains, by wall operated or even remote control.

Glazing – You may wish to locate your conservatory near to your neighbour's fence, or by an open road, if so then you could choose a glazing option which will ensure that your room is kept private. Our range of glass offers different levels of obstruction, providing you with the privacy you require, whilst maximising the level of daylight passing through the glass.
