

Bi-Folding Doors

Your home is beautiful...

*let it*

Create stylish, open-plan living spaces like you've never seen before.

With Bi-folding doors you can make the most of your beautiful home & garden together

# Flourish

with stunning *Signature* bi-folding doors

These versatile bi-folding doors can be installed anywhere and will transform any room. The choice is endless: You could install bi-folding doors on your conservatory to open up the whole back elevation of your home into your garden, or combine two rooms - unfolding to create a larger space for entertaining.

Due to the wide choice of sash configurations you can use the doors in a variety of ways, for example, as a double french door or as a standard single entrance door.

*Our home feels so much bigger now -  
and we're able to entertain and accommodate more of our friends!*

## Features of bi-folding doors

### Appearance

Open your home to the world outside and invite the natural light in.

### A room with a view

These doors allow you to appreciate your surroundings all year round.

### Peace Of Mind

All doors are equipped with multi-point locking systems to keep your home secure.

### Maximise Space

You can choose whether to stack the folded doors inside or outside.

### Easy opening

Bi-folding doors glide on stainless steel rollers making opening and closing effortless.

### Thermally-efficient

The thermal efficiency of our bi-fold doors will help you to trim the cost of your heating bills.

### Customise colour and style

The doors are available in a wide range of colours for you to find the perfect match for your existing interior.

*A little imagination  
can go a long way*

# Aluminium Bi-folding Doors

Aluminium bi-folding doors, common in commercial buildings such as shop fronts and showrooms are renowned for being slim and very robust.

Their versatility is perfect for adding a stylish addition to a contemporary home making them a favourite installation whilst maintaining a high level of quality.

*“During summer it’s hard to tell where our lounge ends and the garden begins.”*

# Slide & Swing Bi-Folding Doors

**new wave**  
the slide and swing bi-fold door system

## Why Slide and swing doors?

- Seamless beautiful lines – no unsightly hardware
- Easy to operate – slide one panel at a time
- Open any part of the door you want. Even operates as a partition
- More living space – inside and out
- High security – ABS 3 Star kitemark accredited lock
- Excellent thermal and weatherproof performance

*With New Wave, you can open as many panels as you require*

**Step 1**  
The first panel is fixed on either side of the opening

**Step 2**  
The subsequent panels slide up to the first and click into place

**Step 3**  
Each panel slides and swings open

**Fully Open**  
All panels stack parallel – making full use of the opening

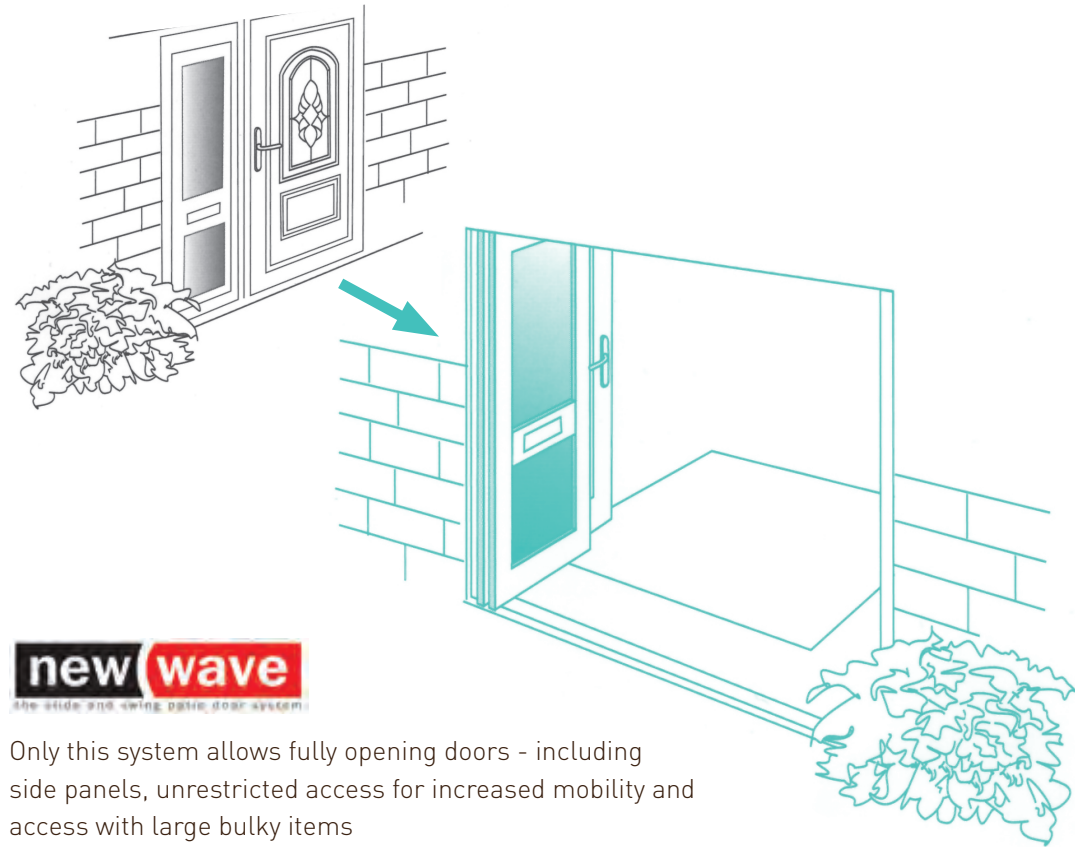

*Signature*

# Think differently

## Main Door & Side Panel

Side panels are always fixed in place, and openings are restricted to the width of the door

**new wave**  
the side and swing door system

Only this system allows fully opening doors - including side panels, unrestricted access for increased mobility and access with large bulky items

This can dramatically transform the dynamic of porches, front doors, and side garage access.

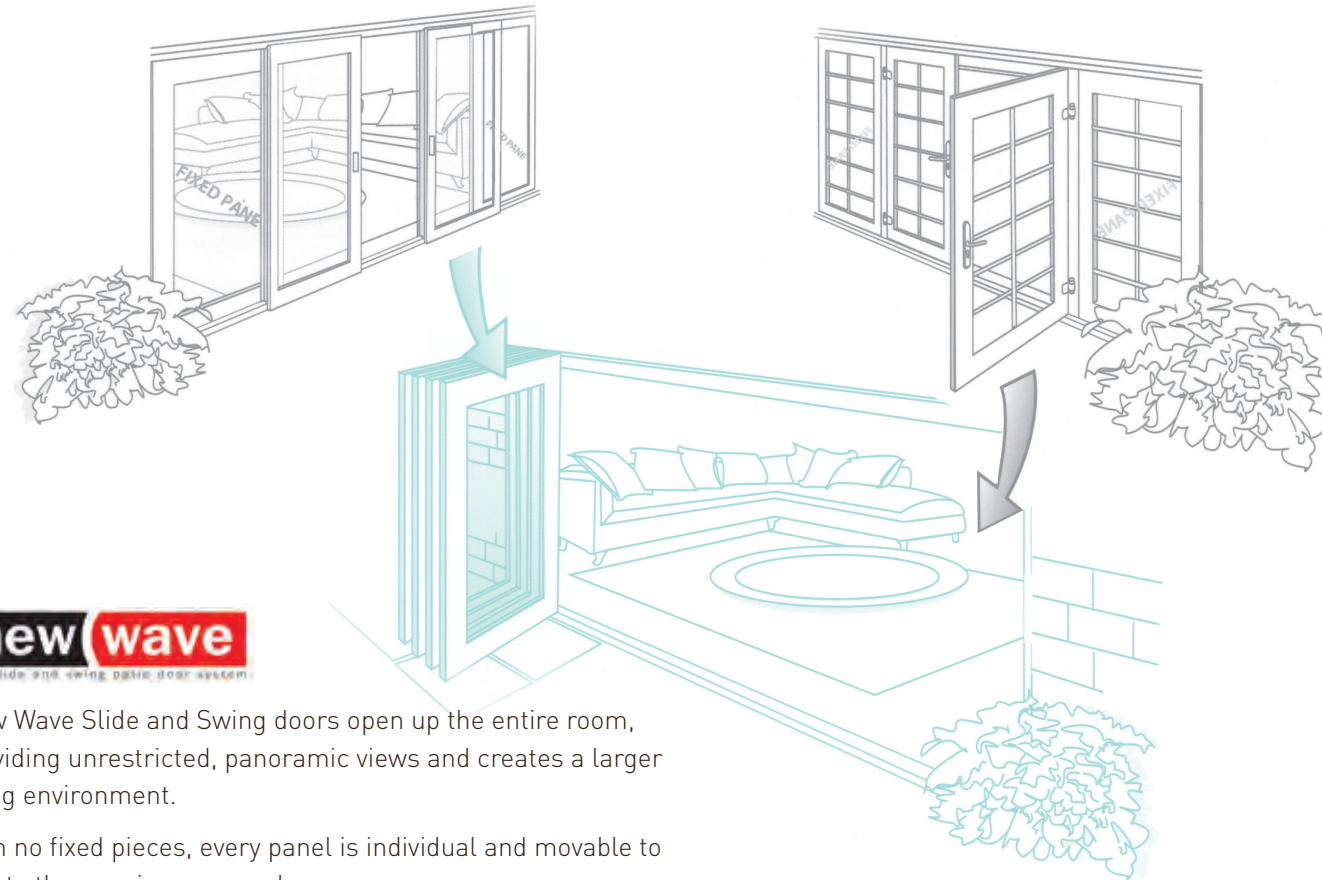

### French Doors

Usually with with fixed panel either side, French doors restrict your view and with only two opening doors, create a smaller opening

### Sliding Sash / Patio Doors

Access is restricted by the necessary fixed pane and the sliding pane is always on the same side

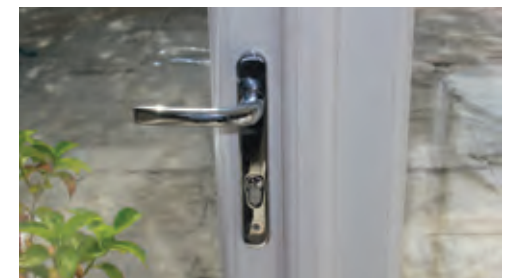

New Wave Slide and Swing doors open up the entire room, providing unrestricted, panoramic views and creates a larger living environment.

With no fixed pieces, every panel is individual and movable to create the opening you need.

# Colour

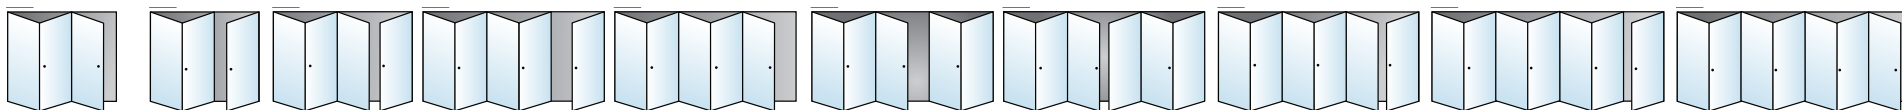

uPVC bi-folding doors are available in traditional woodgrain colours from our *autograph* range, and all aluminium doors can be manufactured in any RAL colour.

## Arrangement Options

You can choose from virtually any combination of bi-folding doors you can think of. Here are some popular examples:

*I never thought my doors would look so contemporary in black - I love them*

Full autograph and RAL colour information is available at:
