Yale Blade.
The revolutionary new concept in window lock technology.

- Easy to fit
- Increased strength
- Greater tolerances
- High corrosion resistance
- 12 year mechanical guarantee
**Yale Blade** is the revolutionary new window lock. Redefining expectations of performance and delivering additional new benefits to fabricators, installers and consumers, whilst still delivering the peace of mind expected from the world's favourite lock company.

Delivering improved efficiencies in manufacturing, higher tolerances and reduced call backs, as well as incredibly smooth operation and no loss of weatherproofing performance - ever, Yale Blade is established as the lock that has reset the bar for window hardware performance.

**New definition of security and performance**

Yale Blade offers greater lock engagement for additional security as it connects along the full length of the keep. And, unlike other window locks, Yale Blade’s aluminium channel uses the full depth of the eurogroove to enhance the strength of the window. This means some systems can reach PAS24 without the need for additional re-enforcement.

Tested to BS EN 1670 Grade 4 (240 hours NSS) and endurance tested to 30,000 cycles, Yale Blade comes with all the assurance you would expect. Exceeding PAS24 requirements, the lock also comes with Secured by Design accreditation. Yale Blade even comes with Yale’s 12 year mechanical guarantee for complete peace of mind.

**Easy to fabricate**
- Keeps can be fitted at any time and do not need marking, greatly increasing manufacturing efficiencies
- An ingenious reversible gearbox means handling considerations are a thing of the past
- Fewer fixings than other window locks, for faster fitting
- One blade height suits all applications, reducing stock holding for multi-system users

**Simple to install**
- A fully retracting blade delivers greater clearances
- The unique geometry and precision engineering eliminates cam clash issues
- The rotating action and keep engagement eliminates wear and the need for adjustability; speeding up installation and reducing call backs

**Ready to specify**
- With PAS24, BS EN 1670 Grade 4 and Secured by Design accreditation Yale Blade has all the credentials you would need and want
- Available in an offset variant where lower placed handles are necessary, aiding compliance with the Lifetime Homes Design Guide

**Robust aluminium construction**
- Outstanding anti-corrosion performance
- Suitable for aggressive environments
- Enhances service life expectancy
- Supported by 12 year mechanical guarantee
- Uses full eurogroove to enhance window strength

**Precision-engineered blade**
- Rotating action dramatically reduces wear
- Eliminates loss of compression performance
- Lock engagement along the full length of the keep

**Gearbox**
- Unique 20mm or 22mm retractable gearbox
- Patented design allows for easy maintenance
- Common to all lock lengths

**Flexible**
- Suitable for sash sizes from 220mm to 1629mm
- One blade height suits all profile systems
- Offset variant for lower handle height requirements

**Keeps**
- Quick and simple to fit during fabrication
- Full lock engagement for optimum security
- No marking and less fixings required
12 Year Mechanical Guarantee
Delivering peace of mind from the world’s favourite lock company

BS EN 1670
British Standards Institute accredited anti-corrosion performance

Secured by Design
Police preferred specification accredited security product of the official UK Police flagship initiative, supporting the principles of ‘designing out crime’

PAS24
British Standards Institute accredited security, weather proofing and service life performance

British Built
Yale Blade window lock is manufactured and assembled in Great Britain

THE YALE BRAND, with its unparalleled global reach and range of products, reassures more people in more countries than any other consumer locking solution.

THE ASSA ABLOY GROUP is the world’s leading manufacturer and supplier of locking solutions, dedicated to satisfying end-user needs for security, safety and convenience.
